CABLE companion

Dear Waitsfield Cable Viewer,

The folks here at Waitsfield Cable know the value of a dollar, and our goal is to provide you with the best television offerings, and the best service, at the best possible price. TV network fees are on the rise and that is making our goal more and more challenging to achieve. Fortunately, we work with organizations such as the National

Cable Television Cooperative (NCTA) and the American Cable Association (ACA) that represent the interests of small and medium-sized cable companies and their customers. Together, we continue to strive to keep costs in check while offering good value and local service. To learn more, you can visit www.TVOnMySide.com for up-to-date information on TV network disputes.

One thing that is never in dispute is Waitsfield Cable's dedication to the communities we serve. We feature an example of this on the cover of this *Cable Companion* issue. Every year, one of our technicians volunteers to hang flags throughout the village of Waitsfield, which are on display from Memorial Day through Labor Day. We hope you enjoy the stars and stripes this summer.

Speaking of stars, you'll be entertained by lots of them as part of your Waitsfield Cable subscription. Keep this magazine handy so you can easily access the programming you want. If you'd like to add options such as HDTV or DVR, just give us a call.

Sincerely,

Gregg Haskin
President & CEO
Waitsfield Cable

HOW TO LISTEN TO YOUR FAVORITE FM RADIO STATIONS

Champlain Valley and Mad River Valley may present challenges for FM radio stations, but you can still enjoy great reception of your favorite local and regional FM radio stations via Waitsfield Cable. How? By hooking up your stereo audio tuner to the coaxial cable used to deliver your cable TV service.

Equipment Needed:

(This is all available at no charge at our Main Business Office in Waitsfield.)

- FM splitter (p/n FMTVD)
- Two 3' RG-6 coaxial cables
- Matching transformer (May not be necessary depending on your stereo audio tuner.)

Wiring Your Stereo Tuner:

1. At the cable set-top box, unplug the coaxial cable from the 'RF in' or 'Cable in' port on the back of your set-top box.
2. Next, connect that coaxial cable onto the 'input' port of the FM splitter. (The input is the single port directly across from the two ports labeled 'FM' and 'TV'.)
3. Using one of the 3' coaxial cables, connect the 'TV' port on the splitter to the 'RF in' or 'Cable in' port on the set-top box.
4. Using the other 3' cable, connect the 'FM' port on the splitter to your FM stereo tuner. (Depending on the type of connector on your radio, you may not need to use the matching transformer, which adapts the coaxial cable (75 Ohms) to a two-contact connector (300 Ohms) with screws or spade lugs.)
5. Tune your favorite radio stations on your stereo tuner just as you normally would.

The **best combination** since blue skies and green grass: **HD and DVR**

With an integrated HD/DVR set-top box from Waitsfield Cable, you get stunning high-definition picture quality plus convenient viewing controls. It's two wonderful technologies combined to form an even more wonderful way to watch TV.

Take a fresh look at the Waitsfield Cable landscape. Call our Customer Service Department at 496-5800 and sign up for an integrated HD/DVR set-top box for just \$14.95* monthly.

*A set-top box is required for each television. In order to receive HD programming, you will need a high-definition television set and an HD/DVR set-top box from Waitsfield Cable. HD/DVR service not available to Basic Service Subscribers. Applicable VT sales tax and public, educational, and government surcharges apply.
