Step 1: Connect the Set-Top Box

1. Plug the power cord into the DC 5V and plug the other end into a nearby wall outlet.
2. Next, plug one end of the HDMI cable into the HDMI port on the EVO Force 1 set-top box and the other end into the HDMI port on the TV.

Step 2: Change Inputs and Pair the Remote

1. After you have the set-top box connected to power and your TV, go to your TV's input list using the remote that came with the TV.
2. Once you are on the correct input, the EVO Force 1 set-top box will ask you to pair the remote with the box.
3. To pair the remote to the box, hold the TiVo button and back button at the same time until the LED light on the remote turns red, then let go.

Step 3: Language and Quick Setup

1. Continue to follow the on-screen instructions to set up language options.
2. If you wish, follow the on-screen instructions for quick setup with an Android phone.

Step 4: Wi-Fi or Ethernet Connection

1. Select your Wi-Fi network and enter your Wi-Fi password.
2. After connecting to your Wi-Fi network, you will see a confirmation screen.
3. Once the set-top box is connected to the internet, it will check for updates. This update can take up to 15 minutes.
